

## The benefits of uPVC

### Minimal Maintenance

Due to its closed, smooth surface their pristine appearance is simply maintained by occasional cleaning with a mild detergent, such as soapy water.

All hardware, gaskets, weather-strips and glazing can be easily replaced without removing the frame from the structure.

### Durability

Rehau profiles have been designed specifically for our harsh climate and contain an ultraviolet inhibitor ensuring the windows remain colour fast.

uPVC frames do not rot, rust or corrode and never need painting or staining. As they do not absorb moisture - they will not warp, twist or split. The benefits of uPVC windows and doors are particularly applicable in coastal areas

"Impact modified" uPVC is treated with special additives making the material extremely tough and durable.

### Insulation

uPVC frames have high thermal and acoustic insulation qualities. Double seals are used between the sash and the frame ensuring excellent weatherproofing. Thermal and acoustic performance can further be enhanced by the use of double glazed units.

### Cost Effective

uPVC windows and doors are both long lasting and virtually maintenance free, making them the most cost-effective option material.

**"Quality is not expensive, its priceless!"**

When it comes to bringing your home to life, nothing beats the refreshing appeal and look of new windows. It's a look that lasts a lifetime.

By installing our advanced and expertly engineered windows and doors, you will enhance your home and increase your comfort while enjoying that all-important peace of mind. Each frame offers superb protection from the elements plus thermal insulation that keeps your house warm, dry and draught free. Thanks to the well thought out profile concept, including the double seal, the windows and doors are water and wind tight. What's more, their outstanding acoustic insulation will shield your home from the noisy hustle and bustle of the outside world. Also, for your total safety, our windows are compatible with all standard security hardware, while boasting many in-built protection features.

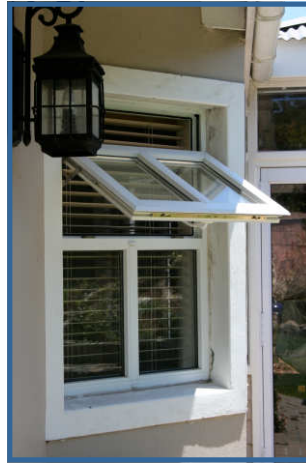

Whatever the style of your home, we will ensure that the window design blends in beautifully. We can also provide architectural bends, arches and circles to suit your requirements.

New Look Window Systems are in partnership with Rehau AG & Co. (Germany).

With over 20 years experience of manufacturing and installing superb quality uPVC windows and Doors, both in South Africa & the UK, we offer:

- Free quotations
- Respect for you and your home
